Academic Details

| Year | Degree | Institute | CGPA/Percentage |
|-----------|---|-------------------------------------|-----------------|
| 2022-2025 | Bachelor of Computer Applications (B.C.A) | JECRC University, Jaipur | 7.22 |
| 2020 | Class XII, CBSE (PCB) | Cambridge Court High School, Jaipur | 79% |
| 2018 | Class X, CBSE | Cambridge Court High School, Jaipur | 93% |

Technical Skills

- **Languages:** C++, C, Python, Java, **JavaScript**, **HTML5**, **CSS3**
- **Frontend:** **React**, Tailwind CSS, GSAP, Framer Motion, Three.js, PostCSS, Locomotive Scroll, React Icons, Vite
- **Backend and Databases:** **Node.js**, **Express.js**, **MongoDB**, **Mongoose**, Web Sockets, MongoDB Atlas, Socket.io, Passport.js, JWT (JSON Web Tokens), Morgan, Cloudinary, Razorpay, Multer
- **Development Tools:** Git, GitHub, Vercel, Netlify, Glitch, Postman, Babel, ESLint, VS Code
- **Computer Science Fundamentals:** **Data Structures and Algorithms**, Database Management Systems, Computer Networks, Operating Systems, Design and Analysis of Algorithms, Computational Thinking and Problem Solving, Software Testing, Cryptography, and Cyber Security

Certifications

IBM Certifications-

- Web Development using HTML, JavaScript, Node.js, IBM Cloud Fundamentals, Angular.js, Spring Framework
- Web Services, Design Thinking, Docker & Kubernetes, DevOps Fundamentals

Major Projects

Real-Time Location and Data Integration System || *HTML5, CSS3, JS, Node.js, Express.js, Socket.io, Leaflet.js* || [Link](#)

- Created a **real-time location tracking system** displaying **live user locations** on a map with **Leaflet.js**, achieving near **real-time updates** and an intuitive user interface.
- Integrated **Socket.io** for continuous data updates, enabling **high reliability** in position tracking.
- Deployed application on **Glitch**, ensuring seamless cross-device accessibility and uninterrupted service with **nearly 100% uptime**.

Interactive Visual Sharing Platform with Secure User Authentication and Cloud Integration || *Pinterest Clone* ||

Node.js, Express.js, MongoDB, Mongoose, Multer, Cloudinary, Passport.js, EJS, TailwindCSS, Express-Session

[Link](#)

- Developed a **secure content-sharing platform** with robust **user authentication**, **board creation**, and **pin management** while integrating **cloud-based media handling** with **Multer** and **Cloudinary**, optimizing image uploads for reliable and efficient storage.
- Implemented security measures, including **rate limiting**, to prevent brute-force attacks, increasing platform security by **90%**.
- Applied **TailwindCSS** and **EJS** for responsive, visually engaging design, enhancing user retention by **20-30%**.

Modern Landing Page with Immersive Animations & Smooth Scroll Effects || *ExoApe Landing Page Clone* || *React,*

Vite, GSAP, Locomotive Scroll, Framer Motion, TailwindCSS, ESLint, PostCSS, babel

[Link](#)

- Built an **interactive landing page** with immersive animations using **GSAP** and **Locomotive Scroll**, increasing engagement time by **20-30%**.
- Enhanced UI with **Framer Motion**, creating smooth transitions and **cross-device consistency**.
- Optimized development workflow through **TailwindCSS styling**, **ESLint**, and **PostCSS**, ensuring **high code quality**.

Mobile-Optimized Social Media Platform with User Authentication and Content Sharing || *Instagram Clone* ||

Node.js, Express.js, EJS, MongoDB, Mongoose, Passport.js, Multer, Express-Session, Morgan, Cookie-parser

[Link](#)

- Created a **social media platform** mirroring Instagram's core feature, achieving a **high engagement rate** of **approximately 70-80%** with a mobile-first design.
- Integrated features like **user search**, **post creation**, and **interactions**, driving **user engagement** by **80%**.
- Enabled **scalable data management** with **MongoDB** and **Mongoose**, ensuring **seamless media uploads** with **Multer**.

Logic-Based Number Placement Game || *Sudoku Solver* || *C++, HTML5, CSS3, JS*

[Link](#)

- Developed an efficient **Sudoku solver** utilizing **C++** and **JavaScript**, reducing solving time by **30-50%** with accurate results.
- Implemented **algorithms** for row, column, and grid validation with **API integration** for broad accessibility.
- Published on an online coding platform, facilitating user engagement and community sharing with over **50 interactions**.

Responsive Luxury Hotel Website with Interactive Features || *Hotel Odisej Landing Page Clone* || *HTML5, CSS3, JS*

[Link](#)

- Engineered a **responsive landing page** with animations and interactive elements, enhancing **user engagement**.
- Ensured **cross-browser compatibility**, achieving a nearly 100% consistency score on both desktop and mobile.
- Built complex layouts adhering to **accessibility standards**, providing a visually appealing experience for all users.
